GETS 'MASTER LIST'

DEMOCRAT-FORUM RECEIVES OFFICIAL DOCUMENT OF NUMBERS.

HERE IS CORRECT LIST

Exemption Board Will Send Notices to Twice the Number of Quota for First Army.

The 'master list" of those drawn in the army draft last Friday has not yet been received by the exemption board here, but the Democrat-Forum received today the official document which has been mailed out to all of the draft boards. The "master lists" were mailed to the governors of all states, and will be forwarded from Jefferson City to the local board.

According to instructions, the exemption board will send notices to twice the number of the quota which this county will furnish the first army. Nodaway county will send 141, and this means 282 will receive notice to report for examination. The Democrat-Forum is printing below the names and order of the men which will be called for the first draft. If the quota from this county cannot be secured from this list, the men next in order will be called on.

As soon as the exemption board receives the official numbers, a date will be set for the physical examination of the men, one-third of them to appear on one day, one-third on the second day, and one-third on the third day.

The following are the names and numbers in order as they come of the Nodaway county men for the first quota of 282.

1 to 100 Inclusive.

BUY YOUR CHAUTAUQUA TICKETS NOW.

The time to buy your Chautauqua tickets is before August 1. If you will do this you will help the guarantors who will have to supply the deficit if you wait until the last moment to buy your tickets.

Do you realize that if you buy your tickets at the tent at the opening of Chautauqua the whole amount goes to the Redpath-Vawter people and not one cent to the guarantors? If you intend to buy tickets eventually, who not do so at once and assure the guarantors of your support of the enterprise?

If the guarantors are "stuck" for $10 or $15 each in settling up with the Chautauqua people, it is probable that Maryville has seen its last Chautauqua. For this reason, if you care to have the Chautauqua come next year, you had better rally to the support of the men who make its coming a possibility.

An active campaign to sell tickets will be made during the next four days. The tickets are on sale at Orears Drug Store the Nodaway Valley Bank, the Farmers Trust Company, P. O. Landon's Music Store and Montgomery-Cummins Clothing store. Show that you are supporting the guarantors and buy your tickets before the opening day of the Chautauqua.

TO HAVE LIGHTS SEPT. 1

C. C. Hellmers Promises Barnard People Full 24-Hour Electric Service In A Short Time.

C. C. Hellmers of the Maryville Electric Light & Power Co., was in Barnard Monday looking after interests here. He said that it was probable that full 24-hour electric light service would begin Sept. 1 to 10.

The line from Maryville to here is built on iron poles which are shipped from Pennsylvania. Scarcity of iron and freight congestion both seem to conspire against Mr Hellmers in finishing the line on time for now he has one car of poles to work with although the other one has been shipped. A large force of men are at work clearing the way and setting over telephone lines that will be affected by the light line and poles have been distributed as far as below Arkoe.—Barnard Bulletin.

POSTAGE GOING UP, TOO?

Department at Washington is Sending Out Many 3-Cent Stamps.

The fact that the postal authorities in Washington are sending unusually large quantities of 3-cent stamps to postoffices without requisitions having been made, is believed by some to mean that 3-cent letter postage soon will be resumed.

A consignment of 1,020,000 3-cent stamps has just been received at the Joseph postoffice, although less than half that number had been ordered. Barnet Springsted, assistant postmaster, said today. Usually the orders are reduced at Washington, rather than increased.

The letter postage has been 2 cents (half ounce) since 1883. From 1847 to 1843 the rate was 3 cents.

Reports of the receipt of like shipments of 3-cent stamps come from other cities.

DRESSINGS SHIPPED

COUNTY UNITS SEND 3,030 TO NEW YORK CITY TODAY.

BANDAGES ARE NEEDED

Women Send Pillows, Bath Mits and Bed Socks With Other Necessaries This Time.

The basement of the Public Library looked like the supply room in one of the large hospitals in France this morning as Miss Betty Turner, Mrs. E. G. Orear and Mrs. W. J. Osburn prepared for shpiment 3,030 surgical dressings made by the Maryville, the Lasher, the Ravenwood and the Skidmore units.

Stacks of tightly wrapped bandages, bundle after bundle of binders and packs, numerous downy pillows, dozens of bed socks, bath mits and cup covers were lined up on a long table and as Mrs. Osburn inspected them they were done up neatly in muslin covers and packed in paste board boxes.

This makes the third and largest shipment that has been sent out of Maryville since the Surgical Dressings units were started in the county and indications are that each shipment will be larger as the women become more expert in their work.

Many frequent and fervent appeals have been received by the Maryville units for bandages. The hospitals in Europe are requiring four kinds, according to the appeal, and the women will specialize in this form of work especially. In addition to this the hospitals want gauze, light weight muslin, heavy weight muslin and crinoline.

The Surgical Dressings association is working every day in connection with the Red Cross association and makes many dressings for the use of the Red Cross nurses.

Miss Hettie Anthony and her class in First Aid and Red Cross work at the State Normal school visited the library basement this morning in order to see how the dressings are packed. All of the physicians of Maryville also inspected the assortment and gave the women great praise for the work which they are doing.

KITTY GORDON, THE STAR

Will Appear at Electric Tonight in Dramatization of "Vera The Medium."

The feature at the Electric Theatre tonight will be Kitty Gordon in "Vera the Medium," an adaptation of Richard Harding Davis' famous novel of the same name. This is the first production by the great English beauty as the head of her own film corporation and is expected to win her hundreds of thousands of new admirers.

The story deals in a highly dramatic fashion with the lure of women and the folly of men and affords the star an opportunity to wear dozens of astounding gowns and to make the most of her remarkable dramatic talent. Supporting Miss Gordon will be seen such screen players as Lowell Sherman, Grant Hitchcock, Joyce Fair, Grace Blow, Gordon Harris and Frank Goldsmith.

Mr. and Mrs. Frank Hall and daughter, Beatrice, and son, Cecil, were guests last night of Mr. and Mrs. A. C. Cummins.

FOR THE POOR FARM

COUNTY COURT PLANS INSTALLATION OF HEATING PLANT.

A GREAT IMPROVEMENT

Mr. and Mrs. D. C. Owen are Handling Work Creditably—Prospect for Good Crop.

The county court is contemplating the installation of a new and modern heating plant in the County Poor farm quarters to replace the stoves that have been in use since the building was made.

Bids for the work were called for today and will be opened by the members of the court at 1:30 o'clock Wednesday, August 8. The new heating system will fill a long felt need at the Poor Farm at the inmates have often suffered from cold during previous winters on account of the inadequate heating facilities.

The improvement at the County farm under the capable direction of Mr. and Mrs. D. C. Owen, formerly of Elmo, is very noticeable. Numerous improvements have been made on the interior of the building and the farm work is progressing rapidly.

"We never had a better chance for a good crop at the Poor Farm," said Judge William Blackford this morning, "all of the hay and grain is looking fine and if we have a little rain within the next few days everything will be in excellent shape."

The county court plans numerous improvements within a year or two to add to the comfort of the inmates and to the efficiency of the care-takers in caring for their charges.

COMMUNICATION

A Word of Explanation.

A business man in Maryville spoke to me concerning an article in yesterday's Daily Democrat-Forum, pertaining to jitneys transporting booze. Now as jitneys are common carriers, what I mean to say is this: Since the express company now refuses to carry intoxicating liquors into dry or local option territory they will turn to the jitneys for the transportation of their booze, and should a jitney be caught carrying booze they will be dealt with according to the law governing common carriers.

I do not wish to insinuate that the jitneys are transporting booze, far from it, for I believe the jitney men of this city are above the average for good citizenship.

TO SELL TICKETS

FRED ROBINSON IS TRYING TO DISPOSE OF 152 REMAINING.

WILL FREE GUARANTORS

Pledge List Showed That Numerous Persons Had Not Been Seen Regarding Promise to Take Tickets.

Fred P. Robinson, assisted by Howard S. Davidson, advance manager for the Chautauqua, is making a determined effort to get rid of the 152 tickets that still remain to be sold before the guarantors are freed from their responsibility.

The first step in this work was to check the pledge cards and it was found that numbers of persons who had pledged themselves to buy the Chautauqua tickets at the end of last season had not been seen. Twenty-two persons when seen had refused for various reasons to redeem their pledges. Letters are to be sent to all of these persons with a special request that they come to the support of the Chautauqua according to their agreement. To the persons who have not been seen will be sent the tickets ordered and also a stamped envelope in which to return the checks for the tickets.

Nearly all of the twenty-five tents for the camping feature of the Chautauqua have been rented and it is expected that all will be disposed of before the opening day.

Estes and Bowmer were awarded the restaurant concession by Fred P. Robinson yesterday.

Corn Stalk 9 Feet Tall.

William Wilcox has on exhibition at the Farmers Trust company, a stalk of corn nine feet high that was grown on the Stock place, three miles south of Maryville. This stalk has seven small ears on it and is very far along in growth in comparison to most of the corn in the county.

WILL FIGHT TO END

FRENCH AND ENGLISH HAVE NO GERMAN PEACE INTENTIONS.

RENEW BELGIAN ATTACKS

Village of Labesseville Changes Hands Twice Amid Heavy Fighting by British and Germans.

Special to The Democrat-Forum.

London, July 27.—The iron-bound determination of the entente allies to fight until Germany is crushed is reaffirmed. That is the interpretation today placed on developments in the past twenty-four hours. There is no thought of peace in London or in Paris. This was made plain by the overwhelming defeat of the Ramsay McDonald peace resolution in the House of Commons and the speech of the former premier Asquith.

Heavy Fighting in Belgium.

London, July 27.—Heavy fighting broke out during the night in Belgium and the village of Labasseville changed hands twice. The British made a powerful attack on the Warneton sector and penetrating Labesseville before they could consolidate their new positions. The Germans counter attack recaptured the place.

WHEAT IN GOOD CONDITION.

Indications Are That Crops This Year Will Amount to $45,200,000 in Kan.

Topeka, Kan., July 27.—Crop report issued today shows wheat in better condition than expected in June. Indications are that the crops this year will amount to 45,200,000 and the average twelve and eight tenths bushels an acre. This exceeds June estimates by three million bushels. General condition of corn fifty-one and four-tenths per cent or a decline of twenty-seven points since June report.

To Conscript Resident Aliens.

Washington, July 27.—State military affairs committee unanimously decided to recommend immediate adoption of Senator Chamberlain's resolution to conscript resident aliens of military age. There is every indication of its adoption.

T. R. D. DeWolf of Hopkins is in Maryville on business today.

APPROACH KOLOMEA

GERMAN AND AUSTRIAN ARMIES CONVERGE AT GALICIAN FORT.

RUSS GAIN IN SOUTH

Women of "Battalion of Death" Distinguish Themselves in First Engagement—Take 142 Prisoners.

Special to The Democrat-Forum.

Geneva, July 27.—German and Austrian armies are converging upon the great Galician fortress of Kolomea from two directions, according to official advices from Berlin. Both Berlin and Vienna report a continued advance in Galicia and admit that violent fighting has developed in the Moldovian province of Roumania where the Russo-Roumanian forces have made important gains south of the Suchietza valley.

Kerensky Wounded, Report.

Paris, July 27.—Kerensky, the Russian dictator, was wounded in the arm while trying to stem the Russian retreat on the eastern front, said a dispatch received here today quoting Budapest newspapers.

Women Distinguish Themselves.

Petrograd, July 27.—Deserted by their men comrades but undaunted by shells that rained around them women of the "batallion of death" distinguished themselves in their first engagement against the Germans, capturing 142 prisoners.

Defeat Helps Russians.

Washington, July 27.—Big benefits for the Russians in the recent thorough defeats of her armies by the Germans were described in a cablegram received by the state department today from Ambassador Francis in Petrograd. No comment on the cable was made by Acting Secretary Polk although he pointed out that the Germans probably will not try to pursue their advantage any great distance into Russia.

BOOZE STILL ARRIVING

Adams Express Company Sends Back Shipments of Liquor Today—To Notify the Dealers.

And still the booze continues to arrive! Four cases of beer and two packages of whiskey will be the amount returned to shippers from the Adams Express company today as a result of the order prohibiting the delivery of liquor at local option stations.

Yesterday six cases of beer and ten packages of whiskey were returned. The owners of the last consignment of booze did not appear on the scene to claim it, evidently feeling that persuasion was of no use in getting their property from the local express agents.

BOOZE A LA FREIGHT NOW

Almost A Carload of Beer and Other Spirits Arrive in Maryville Today No Law Prevents.

Booze a la freight is the way that the liquor users propose to beat the ultimatum of the express companies. According to Ed Goforth, agent for the Burlington, nearly a carload of beer and other spirits was unloaded at Maryville today, and a larger shipment will be received tomorrow.

According to authorities, there is no law prohibiting the shipment of liquor into local option territory and in fact, there is no law behind the action of the express companies.

STORY OF ARTIST'S MODEL

Norma Talmadge Takes Clever Role in "Fifty-Fifty," at the Empire Theatre Tonight.

Norma Talmadge in "Fifty-Fifty" will be the picture at the Empire Theatre tonight. Miss Talmadge takes the part of an artist's model—young, pretty, fascinating. Full of energy and vivacity, she delights in playing with the fire without getting burned. Then she falls in love and when she married, she wants to settle down, but her husband won't so they begin to drift apart. The development from this state of affairs give material for the rest of the picture.

Bids for Heating Plant.

Sealed bids for changing and putting in a heating plant for the Poor Farm will be received in the County Clerk's office from now on, where the plans and specifications for this improvement may be seen.

The bids will be opened at 1:30 o'clock Wednesday afternoon, August 8, by the County Court, which reserves the right to reject any and all bids.

Guests at Clark Home.

LOOK OUT FOR PEDDLERS

While Much of the Agitation Is Needless It Is Well to Look Out For Itinerant Sellers.

Thought there has been a good deal of agitation, much of it needless, over the various peddler stories that have been circulating about the country, there is one feature of the scare that perhaps cannot be over emphasized by the press, and that is the buying of goods and medicines from anyone of an itinerant nature. Aside from the fact that it is better to patronize always home merchants, where you can see what you are getting and where you can hold accountable the merchant for any defect or deficiency which it not at first apparent in his wares, it is the safer thing to do.

These cure-alls, some which are guaranteed to cure all aches, sprains, burns and bruises as well as clean straw hats, serve only the purpose of enriching the pocket books of psuede-medical men. The advice of those who have made a study of medicines and of modern medical science is leave alone all kinds of dope which is supposed to better the health in some miraculous manner.—Creston Daily Advertiser.

MRS. BURNHAM JAMAICA, N. Y.

Sufferings Cured by Medicine Recommended by Sister-in-law.

Jamaica, N. Y.—"I suffered greatly with my head and with backache, was weak, dizzy, nervous, with hot flashes and felt very miserable, as I was irregular for two years. One day when I was feeling unusually bad my sister-in-law came in and said, 'I wish you would try Lydia E. Pinkham's Compound.' So I began taking it and I am now in good health and am cured. I took the Compound three times a day after meals, and on retiring at night. I always keep a bottle in the house."—Mrs. L. N. BURNHAM, 295 South St., Jamaica, N. Y.

Women who recover their health naturally tell others what helped them. Some write and allow their names and photographs to be published with testimonials. Many more tell their friends.

THE WAR ON BUGS

DUSTY TRENCHES, OIL BARRIERS AND LIQUID SPRAYS, WEAPONS.

HOW TO USE THEM

Chinch Bugs Can Be Prevented From Moving Into Corn Fields and Sorghum Crops in This Way.

Dusty trenches, oil barriers and liquid sprays are recommended by T. J. Talbert of the University of Missouri College of Agriculture for preventing the chinch bugs from moving into corn fields and sorghum crops. In dry weather two or three parallel dusty ditches between the wheat field and the corn field will protect the corn. If bugs have already passed into the corn field an dare attacking the first few rows of corn, another series of dusty ditches between the infested and non-infested corn rows should be prepared. The bugs trapped on the corn between the two series of dusty furrows may be killed with kerosene emulsion or soap suds sprays.

The dusty ditches may be made by plowing out deep middle furrows and dragging a log back and forth in the furrow until all the clods and dirt are ground up into a fine dust. The success of the work will depend upon the thorough preparation of the furrow. The sides of the trench must be steep, dry, dusty and free from large stones, trash and litter. The dusty ditch should be dragged every afternoon in order to repair it and to kill the bugs.

After the bugs have collected in the dusty furrows, they may be killed by flaming the ditch with gasoline torch lamp or by dragging the log in the ditch which grinds the bugs up in the hot dust.

In wet weather when a good dusty ditch cannot be made, the bugs may be prevented from entering the corn field by the use of an oil or tar barrier. The ground may be prepared for the oil or tar by dragging the log on top of the ground until a clean hard path is made. The path for the oil or tar may also be made by scraping and cutting out the weeds and gress with a hoe. A wagon track along the center of the path may serve as a groove for the oil or tar. Fill the groove with heavy road oil or liquid gas tar. Where a groove cannot be made, pour the oil or tar in a strip about an inch wide along the center of the path.

As long as the oil or tar line is kept fresh and free from dust and litter, the bugs will not cross it. In order to kill the bugs which collect along the tar line, it is necessary to flame them with the gasoline blast torch or dig post holes 12 to 18 inches deep and from 20 to 30 feet apart on the edge of the tar line nearest the advancing army of bugs. The bugs in traveling and massing along the tar line will roll off into the post holes where they may be killed by flaming with a torch or by spraying with kerosene. It may be necessary to renew the oil or tar line once or twice each day.

The bugs which have reached and settled on the first few rows of corn may be killed by spraying the corn thoroughly with kerosene emulsion. The kerosene emulsion should be made as follows: Dissolve about one-half pound of laundry soap in one gallon of soft water. While the soapy water is still hot, remove it from the fire and add two gallons of kerosene. Churn or ignite the mixture for five or ten minutes after which the emulsion will be ready for use at the rate of one part of the emulsion to twelve or fifteen parts of water. The bugs must be wet b ythe spray, otherwise the work will not be effective. It is important during application of the spray that the mixture be well stirred to kill the bugs and prevent burning the corn.

A soap suds spray made of 4 pounds of laundry soap and 20 or 25 gallons of water is often used effectively against the insects.

Unteidt-Ritter.

A very pretty wedding occurred Tuesday morning, July 24, 1917, at 8 o'clock at St. Benedict's church in Clyde, when Miss Rose Unteidt and Mr. Chas Ritter were united in the holy bonds of wedlock, Rev. Father Frowin officiating. They were attended by Miss Ethel Ritter, sister of the groom, and Mr. Joseph Unteidt, brother of the bride. The bride was costumed in white silk organdie, wore a wreath and veil, and carried a bouquet of bride's roses, while her attendant was dressed in white voile and carried roses. Immediately after the ceremony a sumptious wedding dinner was served at the home of the bride's parents, Mr. and Mrs. William Untiedt, near Clyde, to the immediate relatives and friends of the contracting parties. In the afternoon the newly wedded pair left for a few weeks' honeymoon trip through Colorado and will be at home to their friends on the groom's farm, north of Conception Junction, after August 15. The bride is an accomplished young lady, well known at Conception where she has lived for the past five years and cared for her aged grandparents. The groom is a son of Mrs. Ritter of St. Joseph, and is a honest and industrious young man. The Courier joins with their many friends in wishing them a long and happy journey through life. — Conception Courier.

FIRST DRAFT NOT FELT

Few Firms in Cities Will Be Seriously Hampered for Help By National Army Call.

Special to The Democrat-Forum.

St. Louis, July 27.—Few firms will be seriously hampered for help by the first draft for the National Army and there is little intention of supplanting manual labor of men with that of women, a canvass of 600 firms by the Women's committee of the Missouri Council of Defense revealed.

The canvass was made by Mrs. Elias Michael, chairman of the instruction committee. She sent a list of questions in regard to this to manufacturing concerns, industrial plants, department stores and banks and today received a large number of answers.

Of the many replies received the only firms writing they would use women for the men drafted would be as clerks or in various capacities in the office.

Misses Elizabeth and Ruth Peairs of Des Moines, Ia., are guests at the home of Mrs. S. J. Yoemans at Hopkins. They will come to Maryville for a visit at the home of Mr. and Mrs. Fred Yeomans.

All Traces of Scrofula Eradicated from the System

By the greatest of all purifiers.

A common mistake in the treatment of scrofula has been the use of mercury and other mineral mixtures, the effect of which is to bottle up the impurities in the blood, and hide them from the surface.

The impurities and dangers are only added to in this way.

For more than fifty years S. S. S. has been the one recognized reliable blood remedy that has been used with highly satisfactory results for Scrofula. Being made of the roots and herbs of the forest, it is guaranteed purely vegetable, and absolutely free from all mineral ingredients.

You can obtain S. S. S. from any drugstore. Our chief medical adviser is an expert on all blood disorders, and will cheerfully give you full advice as to the treatment of your own case. Address Swift Specific Co., Dept. F Atlanta, Ga.

GOV'T. WANTS STENOGRAPHERS

Urges Qualified Citizens to Take Examinations—Appointment Certain.

The United States government needs and needs badly, great numbers of stenographers and typewriters, both men and women, for service in the Departments of Washington, D. C., and the situation in the Federal offices outside of Washington is hardly less urgent. The supply of qualified persons in the commissions lists for this class of work is not equal to the demand and the commission urges, as a patriotic duty that citizens with a special knowledge apply for examination for the government service. At present all who pass the examination for the departmental service get appointments. Examination papers are rated without delay.

A RULING ON EXEMPTION

Cases of War Supply Workers Will Be Decided On An Individual Basis Says War Department.

In reply to a letter asking for a statement from the War Department as to the policy in exempting men employed in the manufacture of material used by the Government in the war from military service under the selective draft law, the following reply was received:

"Exclusive jurisdiction to determine exemptions, exclusions, and discharges with reference to the class of persons referred to is vested in the district boards. The policy of exempting by classes would be unwise, and the better plan appears to be by decisions of the proper boards upon individual cases coming before them. The section of the act providing for exclusions and discharges under the 'Persons engaged in industries' clause will be supplemented by regulations authorized to be promulgated by the President There is some latitude given such boards in the exercise of their discretion, and the President has power to affirm, modify, or reverse any decisions, so that it is believed, with this machinery, the question of who shall be taken for military service can be handled in such a way as not to cripple any of the industries mentioned."

NEW OPERA HOUSE DONE

Barnard Citizens Will Dedicate Building With Elaborate Program Tomorrow Night.

The new opera house which is being finished this week will be ready for the opening night, Saturday, July 28, at which time the Eastern Star will present a home talent play, "Female Masonry." The house is being decorated by Arnett the decorator of Maryville and it is certainly a thing of beauty, both inside and outside. Comfortable opera chairs have been bought and will be installed later in the week, fans will keep patrons cool, and everything for comfort of the people is being arranged—Barnard Bulletin.

Music will be given by the Barnard Booster band. A special reading by Miss Carrie Mae Coler will be rendered, "When Pa and Ma Joined the Eastern Star."

TO CARE FOR DEAD

PURPLE CROSS ASS'N FORMED FOR AMERICAN HEROES.

WILL EMBALM BODIES

Soldiers Will Be Buried and When War Is Over Will Be Returned to This Country.

A movement growing out of the entrance of the United States into the war of nations is now being pushed in the East by a society called "The Purple Cross," which will have for its object the care of the bodies of dead Americans who fall on the French battelfields.

The Philadelphia Record gives the following account of the new organization:

"Untiring efforts of two Philadelphians have made it possible for the bringing back to this country, for burial, soldiers and marines who lose their lives while fighting in France. Following the war every man who is killed abroad will be sent to this country and placed at the disposal of relatives or friends for interment. Even should the conflict continue for several years it will be possible, at that time, under the present plan to recognize the bodies of the dead heroes.

Object of Purple Cross.

"The two men discovering that no modern system had been devised by government officials for taking care of the soldier dead in France, decided to form the Purple Cross association, and at the same time presented a plan to the Secretary of War that promises to revolutionize and remove one of the most grewsome features of modern warfare.

"The offer of the two men to the government is as follows:

Make Proposition to Government.

"We will furnish such number of embalmers for the preservation of bodies of soldiers killed in battle or dying in hospitals as you may deem necessary for the purpose.

"We will devise these into such units as you may direct.

"We will equip and train these men.

"We will furnish such number of automobile ambulances as will be necessary for this service.

"We will pay all expenses incident to their equipment, training, transportation and maintenance.

"These will be available for all sanitary work, asking only that they may be allowed to keep their own individual information.

"If it be your wish that we shall be incorporated in your army organization, we will arrange to be enlisted as individuals and assigned as you may direct.

Money Pledged to Aid.

"More than $150,000 has been pledged to carry on this work and $10,000,000 will be raised as soon as Congress places its stamp of approval on the movement.

"The bodies will be embalmed in the front line trenches, or as close as possible. They will then be taken from the battle line and interred until after the war. By the up-to-date process used they will be recognizable for years and will be in a splendid state of preservation when brought to this country.

"Personal assurances, letters and telegrams have been received from the Governors of a dozen states commending the measure. Governor Gardner of Missouri has personally written to the Secretary of War urging the vital importance of this work and offering to resign his governorship and go to France if it be the judgment of the President that he would be of greater service there than in his present office.

FRECKLES

Don't Hide Them With a Veil; Remove Them With Othine Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by any druggist under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine — double strength — and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee.

A BENEFIT GAME SUNDAY

Feds Have Secured Services of Paddile of Denver for Game With Maitland—Proceeds to Band

The benefit game for the Fourth Regiment band will be played between the Maryville Feds and the Maitland team at the Fair grounds Sunday afternoon. The game will be called as usual at 3:15 p. m. and a farewell concert will be played by the boys before the game.

The Maitland team is considered the fastest in Holt county. The Federals have secured Paddile of Denver, who formerly played with Los Angeles in the coast league, to assist in the game.

The proceeds of the ticket sale will be given to the band boys and it is hoped that a large crowd will attend so that a substantial offering may be made to the boys.

Manager Scott has booked games with Rock Port, with Shenandoah, and with the St. Louis Wabash Traveling club for subsequent Sundays.

CHORUS WAS A SUCCESS

Community Singing Proves Exceedingly Popular At Band Concert Last Night.

Community singing bids fair to become an institution of Maryville, and after the first trial of this form of entertainment at the band concert last night, those behind the movement feel greatly encouraged.

Hundreds of persons lined up before the band stand and sang, "My Country 'Tis of Thee," and "The Star Spangled Banner," led by Marcus Nielsen. Mr. Nielsen has the peculiar quality of chorus leadership which inspired the people to do their best under his direction. The first lesson was entirely satisfactory to all concerned and many of the listeners expressed their delight with the quality of the music produced.

In a few weeks community singing will be the special feature of the band concerts and as the singers become more familiar with the songs the pleasure to be found in this community enterprise will be greater

TO TEACH THRIFT

AMERICA WILL REVISE TEXT BOOKS FOR THIS PURPOSE.

GREAT AMERICANS USED

Will Be Held Up to Children as Examples of Successful Accomplishment—Other Changes Planned.

New York, July 24.—America will be the first nation in the world to rewrite her text books so that the children of this country will be taught thrift in the school room. According to an announcement made this week by the Thrift Education committee of the National Education association, radical innovations in the American school curricula are about to take place.

The lives of James J. Hill, Marshall Field, John Wanamaker and other great American business men will be studied in the schools, and text books on arithmetic, history, English composition, domestic science and household economics will be subjected to radical changes. For the first time in the history of the world, thrift, and personal efficiency will be given scientific consideration in the class room. Not the narrow thrift of mere money saving but the broader thrift of individual preparedness for practical life will be taught, declares the committee's statement.

This is the sweeping significance of the resolutions adopted by the National Council of Education at its meeting in Portland last week. The resolutions were written and presented by S. W. Straus of New York, president of the American Society for Thrift. They point out that on account of the war America must now on eliminate waste of every character; that President Wilson's first message to the public after the declaration of war was on thrift; that the only way to safeguard the economic future of the nation is through a better understanding of thrift which can be made possible only through the school room and that at the forthcoming meeting of the Council of Education in Atlanta, Ga., the school organization will be expected to have before it a comprehensive plan for the practical study of thrift in the schools of America.

HAS AMERICAN ADVISER.

Maharaja Gaekwar of India Names Ralph Whitenack Secretary.

Wilmington, Del. — Ralph Cahoon Whitenack of this city has been appointed secretary and economic adviser to the maharaja gaekwar of Baroda, India. Mr. Whitenack is professor of political economy and sociology in Kelo university, Tokyo, Japan. Mr. Whitenack is a resident of this city and a graduate of the Wilmington high school and of Goldey college.

After working as a stenographer at the offices of the Edge Moore Bridge company he attended Brown university and graduated with honors. He went to Baroda in 1906, where his work attracted the gaekwar, who appointed him his economic and financial adviser. Mr. Whitenack built tramways, cotton mills and established a national banking system. He spent three years in India and returned to take a post-graduate course at Harvard. When he had finished his course there he went to Japan.

Indians Buy Liberty Bonds.

Ashland, Wis.—Three hundred and forty Bad river Chippewa Indians, after holding a council, subscribed $162,250 for liberty bonds. A full blooded orphan Chippewa, Frank Antonie, seventeen years old, went to the bank where he had $18,000 to his credit, drew $7,500 and bought bonds. He then applied at the army recruiting station and enlisted.

WHEN THE SOLDIERS DIE

U. S. War Office Gives Course to Be Followed When Sammies Are Killed in France.

In event of death among officers or enlisted men of the army, the Adjutant General's office will continue the present practice of sending individual notices to the next of kin immediately upon receipt of such notice.

This notice will generally consist of a brief notice giving the date, place, and cause of death.

The details attending the death will be given by the deceased's late organization commander

All deaths occurring among the troops of the expeditionary forces in France will be published in the Official Bulletin as soon as notice thereof has been received.

Under the law a deceased soldier's commanding officer has full jurisdiction in the matter of disposing of any personal effects that may have been in the possession of the soldier at the time of his death; and when the effects are not claimed by the legal representatives within a reasonable period the proceeds of the sale are deposited in the United States Treasury subject to the claim of the legal representative, and all such claims are settled by the Auditor for the War Department.

If it is desired to make claim for the personal effects an application for the same should be at once addressed to the commanding officer of the late soldier's company. This application should be accompanied with affidavits of the fact that the claimant is the legal representative entitled to receive the effects of the deceased soldier.

The accounts of deceased soldiers are settled by the Auditor for the War Department, Washington, D. C., who is the official of the Treasury Department, charged by law with the settlement of claims of this character and to whom application should be made by the legal representative of the late soldier for settlement of his accounts. Any correspondence relative to the removal of the remains of the deceased soldier, for the place of burial, should be addressed to the Quartermaster General of the Army, Washington, D. C.

In cases of death among the troops in the United States the commanding officer at the place of death communicates with the relatives of the deceased as to the disposal of the remains. In event, however, that burial has already taken place all correspondence relative to the removal of the remains of the deceased should be addressed to the Quartermaster General, United States Army, Washington, D. C.

: FLAW IN ALIEN DRAFT PLAN.

Conscription of Foreigners Would Necessitate Reciprocal Agreement.

Washington, July 27.—Agreements with allied governments for drafting their subjects in this country were discussed by Senators Stone and McCumber with Acting Secretary Polk of the state department.

It was pointed out that such conscription might necessitate reciprocal conscription amongst Americans living in allied countries and would establish a precedent which might be dangerous. Italy, Serbia and Japan have special treaties on the subject which would have to be amended.

DAILY DEMOCRAT-FORUM

NEWS DISPATCHES FROM THE INTERNATIONAL NEWS SERVICE.

VOLUME 8. MARYVILLE, MISSOURI, FRIDAY, JULY 27, 1917 NO. 46.

GETS 'MASTER LIST'

DEMOCRAT-FORUM RECEIVES OFFICIAL DOCUMENT OF NUMBERS.

HERE IS CORRECT LIST

Exemption Board Will Send Notices to Twice the Number of Quota for First Army.

The 'master list" of those drawn in the army draft last Friday has not yet been received by the exemption board here, but the Democrat-Forum received today the official document which has been mailed out to all of the draft boards. The "master lists" were mailed to the governors of all states, and will be forwarded from Jefferson City to the local board.

According to instructions, the exemption board will send notices to twice the number of the quota which this county will furnish the first army. Nodaway county will send 141, and this means 282 will receive notice to report for examination. The Democrat-Forum is printing below the names and order of the men which will be called for the first draft. If the quota from this county cannot be secured from this list, the men next in order will be called on.

As soon as the exemption board receives the official numbers, a date will be set for the physical examination of the men, one-third of them to appear on one day, one-third on the second day, and one-third on the third day.

The following are the names and numbers in order as they come of the Nodaway county men for the first quota of 282.

1 to 100 Inclusive.

258—Duett F. Clement, Quitman.
458—Roy E. Wedge, Burlington Junction.

BUY YOUR CHAUTAUQUA TICKETS NOW.

The time to buy your Chautauqua tickets is before August 1. If you will do this you will help the guarantors who will have to supply the deficit if you wait until the last moment to buy your tickets.

Do you realize that if you buy your tickets at the tent at the opening of Chautauqua the whole amount goes to the Redpath-Vawter people and not one cent to the guarantors? If you intend to buy tickets eventually, who not do so at once and assure the guarantors of your support of the enterprise?

If the guarantors are "stuck" for $10 or $15 each in settling up with the Chautauqua people, it is probable that Maryville has seen its last Chautauqua. For this reason, if you care to have the Chautauqua come next year, you had better rally to the support of the men who make its coming a possibility.

An active campaign to sell tickets will be made during the next four days. The tickets are on sale at Orears Drug Store the Nodaway Valley Bank, the Farmers Trust Company, P. O. Landon's Music Store and Montgomery-Cummins Clothing store. Show that you are supporting the guarantors and buy your tickets before the opening day of the Chautauqua.

TO HAVE LIGHTS SEPT. 1

C. C. Hellmers Promises Barnard People Full 24-Hour Electric Service In A Short Time.

C. C. Hellmers of the Maryville Electric Light & Power Co., was in Barnard Monday looking after interests here. He said that it was probable that full 24-hour electric light service would begin Sept. 1 to 10.

The line from Maryville to here is built on iron poles which are shipped from Pennsylvania. Scarcity of iron and freight congestion both seem to conspire against Mr Hellmers in finishing the line on time for now he has one car of poles to work with although the other one has been shipped. A large force of men are at work clearing the way and setting over telephone lines that will be affected by the light line and poles have been distributed as far as below Arkoe.—Barnard Bulletin.

POSTAGE GOING UP, TOO?

Department at Washington is Sending Out Many 3-Cent Stamps.

The fact that the postal authorities in Washington are sending unusually large quantities of 3-cent stamps to postoffices without requisitions having been made, is believed by some to mean that 3-cent letter postage soon will be resumed.

A consignment of 1,020,000 3-cent stamps has just been received at the Joseph postoffice, although less than half that number had been ordered, Barnet Springsted, assistant postmaster, said today. Usually the orders are reduced at Washington, rather than increased.

The letter postage has been 2 cents (half ounce) since 1883. From 1847 to 1843 the rate was 3 cents.

Reports of the receipt of like shipments of 3-cent stamps come from other cities.

DRESSINGS SHIPPED

COUNTY UNITS SEND 3,030 TO NEW YORK CITY TODAY.

BANDAGES ARE NEEDED

Women Send Pillows, Bath Mits and Bed Socks With Other Necessaries This Time.

The basement of the Public Library looked like the supply room in one of the large hospitals in France this morning as Miss Betty Turner, Mrs. E. G. Orear and Mrs. W. J. Osburn prepared for shpiment 3,030 surgical dressings made by the Maryville, the Lasher, the Ravenwood and the Skidmore units.

Stacks of tightly wrapped bandages, bundle after bundle of binders and packs, numerous downy pillows, dozens of bed socks, bath mits and cup covers were lined up on a long table and as Mrs. Osburn inspected them they were done up neatly in muslin covers and packed in paste board boxes.

This makes the third and largest shipment that has been sent out of Maryville since the Surgical Dressings units were started in the county and indications are that each shipment will be larger as the women become more expert in their work.

Many frequent and fervent appeals have been received by the Maryville units for bandages. The hospitals in Europe are requiring four kinds, according to the appeal, and the women will specialize in this form of work especially. In addition to this the hospitals want gauze, light weight muslin, heavy weight muslin and crinoline.

The Surgical Dressings association is working every day in connection with the Red Cross association and makes many dressings for the use of the Red Cross nurses.

Miss Hettie Anthony and her class in First Aid and Red Cross work at the State Normal school visited the library basement this morning in order to see how the dressings are packed. All of the physicians of Maryville also inspected the assortment and gave the women great praise for the work which they are doing.

KITTY GORDON, THE STAR

Will Appear at Electric Tonight in Dramatization of "Vera The Medium."

The feature at the Electric Theatre tonight will be Kitty Gordon in "Vera the Medium," an adaptation of Richard Harding Davis' famous novel of the same name. This is the first production by the great English beauty as the head of her own film corporation and is expected to win her hundreds of thousands of new admirers.

The story deals in a highly dramatic fashion with the lure of women and the folly of men and affords the star an opportunity to wear dozens of astounding gowns and to make the most of her remarkable dramatic talent. Supporting Miss Gordon will be seen such screen players as Lowell Sherman, Grant Hitchcock, Joyce Fair, Grace Blow, Gordon Harris and Frank Goldsmith.

Mr. and Mrs. Frank Hall and daughter, Beatrice, and son, Cecil, were guests last night of Mr. and Mrs. A. C. Cummins.

FOR THE POOR FARM

COUNTY COURT PLANS INSTALLATION OF HEATING PLANT.

A GREAT IMPROVEMENT

Mr. and Mrs. D. C. Owen are Handling Work Creditably—Prospect for Good Crop.

The county court is contemplating the installation of a new and modern heating plant in the County Poor farm quarters to replace the stoves that have been in use since the building was made.

Bids for the work were called for today and will be opened by the members of the court at 1:30 o'clock Wednesday, August 8. The new heating system will fill a long felt need at the Poor Farm at the inmates have often suffered from cold during previous winters on account of the inadequate heating facilities.

The improvement at the County farm under the capable direction of Mr. and Mrs. D. C. Owen, formerly of Elmo, is very noticeable. Numerous improvements have been made on the interior of the building and the farm work is progressing rapidly.

"We never had a better chance for a good crop at the Poor Farm," said Judge William Blackford this morning, "all of the hay and grain is looking fine and if we have a little rain within the next few days everything will be in excellent shape."

The county court plans numerous improvements within a year or two to add to the comfort of the inmates and to the efficiency of the care-takers in caring for their charges.

COMMUNICATION

A Word of Explanation.

A business man in Maryville spoke to me concerning an article in yesterday's Daily Democrat-Forum, pertaining to jitneys transporting booze. Now as jitneys are common carriers, what I mean to say is this: Since the express company now refuses to carry intoxicating liquors into dry or local option territory they will turn to the jitneys for the transportation of their booze, and should a jitney be caught carrying booze they will be dealt with according to the law governing common carriers.

I do not wish to insinuate that the jitneys are transporting booze, far from it, for I believe the jitney men of this city are above the average for good citizenship.

TO SELL TICKETS

FRED ROBINSON IS TRYING TO DISPOSE OF 152 REMAINING.

WILL FREE GUARANTORS

Pledge List Showed That Numerous Persons Had Not Been Seen Regarding Promise to Take Tickets.

Fred P. Robinson, assisted by Howard S. Davidson, advance manager for the Chautauqua, is making a determined effort to get rid of the 152 tickets that still remain to be sold before the guarantors are freed from their responsibility.

The first step in this work was to check the pledge cards and it was found that numbers of persons who had pledged themselves to buy the Chautauqua tickets at the end of last season had not been seen. Twenty-two persons when seen had refused for various reasons to redeem their pledges. Letters are to be sent to all of these persons with a special request that they come to the support of the Chautauqua according to their agreement. To the persons who have not been seen will be sent the tickets ordered and also a stamped envelope in which to return the checks for the tickets.

Nearly all of the twenty-five tents for the camping feature of the Chautauqua have been rented and it is expected that all will be disposed of before the opening day.

Estes and Bowmer were awarded the restaurant concession by Fred P. Robinson yesterday.

WILL FIGHT TO END

FRENCH AND ENGLISH HAVE NO GERMAN PEACE INTENTIONS.

RENEW BELGIAN ATTACKS

Village of Labesseville Changes Hands Twice Amid Heavy Fighting by British and Germans.

Special to The Democrat-Forum.

London, July 27.—The iron-bound determination of the entente allies to fight until Germany is crushed is reaffirmed. That is the interpretation today placed on developments in the past twenty-four hours. There is no thought of peace in London or in Paris. This was made plain by the overwhelming defeat of the Ramsay McDonald peace resolution in the House of Commons and the speech of the former premier Asquith.

Heavy Fighting in Belgium.

London, July 27.—Heavy fighting broke out during the night in Belgium and the village of Labasseville changed hands twice. The British made a powerful attack on the Warneton sector and penetrating Labesseville before they could consolidate their new positions. The Germans counter attack recaptured the place.

WHEAT IN GOOD CONDITION.

Indications Are That Crops This Year Will Amount to $45,200,000 in Kan.

Topeka, Kan., July 27.—Crop report issued today shows wheat in better condition than expected in June. Indications are that the crops this year will amount to 45,200,000 and the average twelve and eight tenths bushels an acre. This exceeds June estimates by three million bushels. General condition of corn fifty-one and four-tenths per cent or a decline of twenty-seven points since June report.

To Conscript Resident Aliens.

Washington, July 27.—State military affairs committee unanimously decided to recommend immediate adoption of Senator Chamberlain's resolution to conscript resident aliens of military age. There is every indication of its adoption.

T. R. D. DeWolf of Hopkins is in Maryville on business today.

APPROACH KOLOMEA

GERMAN AND AUSTRIAN ARMIES CONVERGE AT GALICIAN FORT.

RUSS GAIN IN SOUTH

Women of "Battalion of Death" Distinguish Themselves in First Engagement—Take 142 Prisoners.

Special to The Democrat-Forum.

Geneva, July 27.—German and Austrian armies are converging upon the great Galician fortress of Kolomea from two directions, according to official advices from Berlin. Both Berlin and Vienna report a continued advance in Galicia and admit that violent fighting has developed in the Moldovian province of Roumania where the Russo-Roumanian forces have made important gains south of the Suchietza valley.

Kerensky Wounded, Report.

Paris, July 27.—Kerensky, the Russian dictator, was wounded in the arm while trying to stem the Russian retreat on the eastern front, said a dispatch received here today quoting Budapest newspapers.

Women Distinguish Themselves.

Petrograd, July 27.—Deserted by their men comrades but undaunted by shells that rained around them women of the "batallion of death" distinguished themselves in their first engagement against the Germans, capturing 142 prisoners.

Defeat Helps Russians.

Washington, July 27.—Big benefits for the Russians in the recent thorough defeats of her armies by the Germans were described in a cablegram received by the state department today from Ambassador Francis in Petrograd. No comment on the cable was made by Acting Secretary Polk although he pointed out that the Germans probably will not try to pursue their advantage any great distance into Russia.

BOOZE STILL ARRIVING

Adams Express Company Sends Back Shipments of Liquor Today—To Notify the Dealers.

And still the booze continues to arrive! Four cases of beer and two packages of whiskey will be the amount returned to shippers from the Adams Express company today as a result of the order prohibiting the delivery of liquor at local option stations.

Yesterday six cases of beer and ten packages of whiskey were returned. The owners of the last consignment of booze did not appear on the scene to claim it, evidently feeling that persuasion was of no use in getting their property from the local express agents.

BOOZE A LA FREIGHT NOW

Almost A Carload of Beer and Other Spirits Arrive in Maryville Today No Law Prevents.

Booze a la freight is the way that the liquor users propose to beat the ultimatum of the express companies. According to Ed Goforth, agent for the Burlington, nearly a carload of beer and other spirits was unloaded at Maryville today, and a larger shipment will be received tomorrow.

According to authorities, there is no law prohibiting the shipment of liquor into local option territory and in fact, there is no law behind the action of the express companies.

STORY OF ARTIST'S MODEL

Norma Talmadge Takes Clever Role in "Fifty-Fifty," at the Empire Theatre Tonight.

Norma Talmadge in "Fifty-Fifty" will be the picture at the Empire Theatre tonight. Miss Talmadge takes the part of an artist's model—young, pretty, fascinating. Full of energy and vivacity, she delights in playing with the fire without getting burned. Then she falls in love and when she married, she wants to settle down, but her husband won't so they begin to drift apart. The development from this state of affairs give material for the rest of the picture.

Bids for Heating Plant.

Sealed bids for changing and putting in a heating plant for the Poor Farm will be received in the County Clerk's office from now on, where the plans and specifications for this improvement may be seen.

The bids will be opened at 1:30 o'clock Wednesday afternoon, August 8, by the County Court, which reserves the right to reject any and all bids.

Guests at Clark Home.

Mr. and Mrs. Alvin Clark and baby son, James Edward, and Mr. and Mrs. T. R. Bohanan of Kansas City are guests at the home of Mr. Clark's parents, Mr. and Mrs. James Clark, north of Maryville. They will leave Sunday for their home.

Attended Cooper Funeral.

Mr. and Mrs. George Hepburn and Mrs. J. L. Hepburn of Hopkins and Mrs. Roberts of Denver, attended the funeral services of Mrs. Bert Cooper, which were held yesterday afternoon at the First Methodist church.

Otto Cornett Enlists.

Otto Cornett of Maryville has enlisted in the aviation section of the signal corps, and left this morning for Jefferson Barracks.

Mr. and Mrs. Dallas Owens of Skidmore announce the birth of a son, born last night.

LOOK OUT FOR PEDDLERS

While Much of the Agitation Is Needless It Is Well to Look Out For Itinerant Sellers.

Thought there has been a good deal of agitation, much of it needless, over the various peddler stories that have been circulating about the country, there is one feature of the scare that perhaps cannot be over emphasized by the press, and that is the buying of goods and medicines from anyone of an itinerant nature. Aside from the fact that it is better to patronize always home merchants, where you can see what you are getting and where you can hold accountable the merchant for any defect or deficiency which it not at first apparent in his wares, it is the safer thing to do.

These cure-alls, some which are guaranteed to cure all aches, sprains, burns and bruises as well as clean straw hats, serve only the purpose of enriching the pocket books of psuede-medical men. The advice of those who have made a study of medicines and of modern medical science is leave alone all kinds of dope which is supposed to better the health in some miraculous manner.—Creston Daily Advertiser.

MRS. BURNHAM JAMAICA, N. Y.

Sufferings Cured by Medicine Recommended by Sister-in-law.

Jamaica, N. Y.—"I suffered greatly with my head and with backache, was weak, dizzy, nervous, with hot flashes and felt very miserable, as I was irregular for two years. One day when I was feeling unusually bad my sister-in-law came in and said, 'I wish you would try Lydia E. Pinkham's Compound.' So I began taking it and I am now in good health and am cured. I took the Compound three times a day after meals, and on retiring at night. I always keep a bottle in the house."—Mrs. L. N. BURNHAM, 295 South St., Jamaica, N.Y.

Women who recover their health naturally tell others what helped them. Some write and allow their names and photographs to be published with testimonials. Many more tell their friends.

Write Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for anything you need to know about your ailments.

FIRST DRAFT NOT FELT

Few Firms in Cities Will Be Seriously Hampered for Help By National Army Call.

Special to The Democrat-Forum.

St. Louis, July 27.—Few firms will be seriously hampered for help by the first draft for the National Army and there is little intention of supplanting manual labor of men with that of women, a canvass of 600 firms by the Women's committee of the Missouri Council of Defense revealed.

The canvass was made by Mrs. Elias Michael, chairman of the instruction committee. She sent a list of questions in regard to this to manufacturing concerns, industrial plants, department stores and banks and today received a large number of answers.

Of the many replies received the only firms writing they would use women for the men drafted would be as clerks or in various capacities in the office.

Misses Elizabeth and Ruth Pealrs of Des Moines, Ia., are guests at the home of Mrs. S. J. Yoemans at Hopkins. They will come to Maryville for a visit at the home of Mr. and Mrs. Fred Yeomans.

All Traces of Scrofula Eradicated from the System

By the greatest of all purifiers.

A common mistake in the treatment of scrofula has been the use of mercury and other mineral mixtures, the effect of which is to bottle up the impurities in the blood, and hide them from the surface.

The impurities and dangers are only added to in this way.

For more than fifty years S. S. S. has been the one recognized reliable blood remedy that has been used with highly satisfactory results for Scrofula. Being made of the roots and herbs of the forest, it is guaranteed purely vegetable, and absolutely free from all mineral ingredients.

You can obtain S. S. S. from any drugstore. Our chief medical adviser is an expert on all blood disorders, and will cheerfully give you full advice as to the treatment of your own case. Address Swift Specific Co., Dept. F Atlanta, Ga.

THE WAR ON BUGS

DUSTY TRENCHES, OIL BARRIERS AND LIQUID SPRAYS, WEAPONS.

HOW TO USE THEM

Chinch Bugs Can Be Prevented From Moving Into Corn Fields and Sorghum Crops in This Way.

Dusty trenches, oil barriers and liquid sprays are recommended by T. J. Talbert of the University of Missouri College of Agriculture for preventing the chinch bugs from moving into corn fields and sorghum crops. In dry weather two or three parallel dusty ditches between the wheat field and the corn field will protect the corn. If bugs have already passed into the corn field an dare attacking the first few rows of corn, another series of dusty ditches between the infested and non-infested corn rows should be prepared. The bugs trapped on the corn between the two series of dusty furrows may be killed with kerosene emulsion or soap suds sprays.

The dusty ditches may be made by plowing out deep middle furrows and dragging a log back and forth in the furrow until all the clods and dirt are ground up into a fine dust. The success of the work will depend upon the thorough preparation of the furrow. The sides of the trench must be steep, dry, dusty and free from large stones, trash and litter. The dusty ditch should be dragged every afternoon in order to repair it and to kill the bugs.

After the bugs have collected in the dusty furrows, they may be killed by flaming the ditch with gasoline torch lamp or by dragging the log in the ditch which grinds the bugs up in the hot dust.

In wet weather when a good dusty ditch cannot be made, the bugs may be prevented from entering the corn field by the use of an oil or tar barrier. The ground may be prepared for the oil or tar by dragging the log on top of the ground until a clean hard path is made. The path for the oil or tar may also be made by scraping and cutting out the weeds and gress with a hoe. A wagon track along the center of the path may serve as a groove for the oil or tar. Fill the groove with heavy road oil or liquid gas tar. Where a groove cannot be made, pour the oil or tar in a strip about an inch wide along the center of the path.

As long as the oil or tar line is kept fresh and free from dust and litter, the bugs will not cross it. In order to kill the bugs which collect along the tar line, it is necessary to flame them with the gasoline blast torch or dig post holes 12 to 18 inches deep and from 20 to 30 feet apart on the edge of the tar line nearest the advancing army of bugs. The bugs in traveling and massing along the tar line will roll off into the post holes where they may be killed by flaming with a torch or by spraying with kerosene. It may be necessary to renew the oil or tar line once or twice each day.

The bugs which have reached and settled on the first few rows of corn may be killed by spraying the corn thoroughly with kerosene emulsion. The kerosene emulsion should be made as follows: Dissolve about one-half pound of laundry soap in one gallon of soft water. While the soapy water is still hot, remove it from the fire and add two gallons of kerosene. Churn or ignite the mixture for five or ten minutes after which the emulsion will be ready for use at the rate of one part of the emulsion to twelve or fifteen parts of water. The bugs must be wet b ythe spray, otherwise the work will not be effective. It is important during application of the spray that the mixture be well stirred to kill the bugs and prevent burning the corn.

A soap suds spray made of 4 pounds of laundry soap and 20 or 25 gallons of water is often used effectively against the insects.

GOV'T. WANTS STENOGRAPHERS

Urges Qualified Citizens to Take Examinations—Appointment Certain.

The United States government needs and needs badly, great numbers of stenographers and typewriters, both men and women, for service in the Departments of Washington, D. C., and the situation in the Federal offices outside of Washington is hardly less urgent. The supply of qualified persons in the commissions lists for this class of work is not equal to the demand and the commission urges, as a patriotic duty that citizens with a special knowledge apply for examination for the government service. At present all who pass the examination for the departmental service get appointments. Examination papers are rated without delay.

Today—tires cost less than ever

Your tires actually cost you less per mile today than they did a few years ago,

—*provided* you buy the right kind of tires.

In the first place, don't buy a nondescript tire that some dealer has a selfish price motive in selling to you.

Buy a tire with a name behind it—a tire, the quality of which must be so good that the reputation of a great Company is protected.

United States Tires, with the name of the largest rubber manufacturer in the world behind them, are safe tires to buy.

United States Tires are constructed under an exclusive time-tried vulcanizing process that is patented.

Unteidt-Ritter.

A very pretty wedding occurred Tuesday morning, July 24, 1917, at 8 o'clock at St. Benedict's church in Clyde, when Miss Rose Unteidt and Mr. Chas Ritter were united in the holy bonds of wedlock, Rev. Father Frowin officiating. They were attended by Miss Ethel Ritter, sister of the groom, and Mr. Joseph Unteidt, brother of the bride. The bride was costumed in white silk organdie, wore a wreath and veil, and carried a bouquet of bride's roses, while her attendant was dressed in white voile and carried roses. Immediately after the ceremony a sumptious wedding dinner was served at the home of the bride's parents, Mr. and Mrs. William Untiedt, near Clyde, to the immediate relatives and friends of the contracting parties. In the afternoon the newly wedded pair left for a few weeks' honeymoon trip through Colorado and will be at home to their friends on the groom's farm, north of Conception Junction, after August 15. The bride is an accomplished young lady, well known at Conception where she has lived for the past five years and cared for her aged grandparents. The groom is a son of Mrs. Ritter of St. Joseph, and is a honest and industrious young man. The Courier joins with their many friends in wishing them a long and happy journey through life. — Conception Courier.

A RULING ON EXEMPTION

Cases of War Supply Workers Will Be Decided On An Individual Basis Says War Department.

In reply to a letter asking for a statement from the War Department as to the policy in exempting men employed in the manufacture of material used by the Government in the war from military service under the selective draft law, the following reply was received:

"Exclusive jurisdiction to determine exemptions, exclusions, and discharges with reference to the class of persons referred to is vested in the district boards. The policy of exempting by classes would be unwise, and the better plan appears to be by decisions of the proper boards upon individual cases coming before them. The section of the act providing for exclusions and discharges under the 'Persons engaged in industries' clause will be supplemented by regulations authorized to be promulgated by the President. There is some latitude given such boards in the exercise of their discretion, and the President has power to affirm, modify, or reverse any decisions, so that it is believed, with this machinery, the question of who shall be taken for military service can be handled in such a way as not to cripple any of the industries mentioned."

NEW OPERA HOUSE DONE

Barnard Citizens Will Dedicate Building With Elaborate Program Tomorrow Night.

The new opera house which is being finished this week will be ready for the opening night, Saturday, July 28, at which time the Eastern Star will present a home talent play, "Female Masonry." The house is being decorated by Arnett the decorator of Maryville and it is certainly a thing of beauty, both inside and outside. Comfortable opera chairs have been bought and will be installed later in the week, fans will keep patrons cool, and everything for comfort of the people is being arranged—Barnard Bulletin.

Music will be given by the Barnard Booster band. A special reading by Miss Carrie Mae Coler will be rendered, "When Pa and Ma Joined the Eastern Star."

The cast of characters for the play are:

Most Illustrious High Mogul, Mrs. Tom Cook; Imperial Grand Marshal, Mrs. P. R. Melvin; Grand High Pull Hauler, Mrs. M. M. Pollard; High Muck-a-Muck, Miss A. Fern Campbell; A. F. and A. TO CARE FOR DEAD

PURPLE CROSS ASS'N FORMED FOR AMERICAN HEROES.

WILL EMBALM BODIES

Soldiers Will Be Buried and When War Is Over Will Be Returned to This Country.

A movement growing out of the entrance of the United States into the war of nations is now being pushed in the East by a society called "The Purple Cross," which will have for its object the care of the bodies of dead Americans who fall on the French battlefields.

The Philadelphia Record gives the following account of the new organization:

"Untiring efforts of two Philadelphians have made it possible for the bringing back to this country, for burial, soldiers and marines who lose their lives while fighting in France. Following the war every man who is killed abroad will be sent to this country and placed at the disposal of relatives or friends for interment. Even should the conflict continue for several years it will be possible, at that time, under the present plan to recognize the bodies of the dead heroes.

Object of Purple Cross.

"The two men discovering that no modern system had been devised by government officials for taking care of the soldier dead in France, decided to form the Purple Cross association, and at the same time presented a plan to the Secretary of War that promises to revolutionize and remove one of the most grewsome features of modern warfare.

"The offer of the two men to the government is as follows:

Make Proposition to Government.

"We will furnish such number of embalmers for the preservation of bodies of soldiers killed in battle or dying in hospitals as you may deem necessary for the purpose.

"We will devise these into such units as you may direct.

"We will equip and train these men.

"We will furnish such number of automobile ambulances as will be necessary for this service.

"We will pay all expenses incident to their equipment, training, transportation and maintenance.

"These will be available for all sanitary work, asking only that they may be allowed to keep their own individual information.

"If it be your wish that we shall be incorporated in your army organization, we will arrange to be enlisted as individuals and assigned as you may direct.

Money Pledged to Aid.

"More than $150,000 has been pledged to carry on this work and $10,000,000 will be raised as soon as Congress places its stamp of approval on the movement.

"The bodies will be embalmed in the front line trenches, or as close as possible. They will then be taken from the battle line and interred until after the war. By the up-to-date process used they will be recognizable for years and will be in a splendid state of preservation when brought to this country.

"Personal assurances, letters and telegrams have been received from the Governors of a dozen states commending the measure. Governor Gardner of Missouri has personally written to the Secretary of War urging the vital importance of this work and offering to resign his governorship and go to France if it be the judgment of the President that he would be of greater service there than in his present office.

FRECKLES

Don't Hide Them With a Veil; Remove Them With Othine Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by any druggist under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine — double strength — and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee.

A BENEFIT GAME SUNDAY

Feds Have Secured Services of Paddile of Denver for Game With Maitland—Proceeds to Band

The benefit game for the Fourth Regiment band will be played between the Maryville Feds and the Maitland team at the Fair grounds Sunday afternoon. The game will be called as usual at 3:15 p. m. and a farewell concert will be played by the boys before the game.

The Maitland team is considered the fastest in Holt county. The Federals have secured Paddile of Denver, who formerly played with Los Angeles in the coast league, to assist in the game.

The proceeds of the ticket sale will be given to the band boys and it is hoped that a large crowd will attend so that a substantial offering may be made to the boys.

Manager Scott has booked games with Rock Port, with Shenandoah, and with the St. Louis Wabash Traveling club for subsequent Sundays.

CHORUS WAS A SUCCESS

Community Singing Proves Exceedingly Popular At Band Concert Last Night.

Community singing bids fair to become an institution of Maryville, and after the first trial of this form of entertainment at the band concert last night, those behind the movement feel greatly encouraged.

Hundreds of persons lined up before the band stand and sang, "My Country 'Tis of Thee," and "The Star Spangled Banner," led by Marcus Nielsen. Mr. Nielsen has the peculiar quality of chorus leadership which inspired the people to do their best under his direction. The first lesson was entirely satisfactory to all concerned and many of the listeners expressed their delight with the quality of the music produced.

In a few weeks community singing will be the special feature of the band concerts and as the singers become more familiar with the songs the pleasure to be found in this community enterprise will be greater

Dr. Frank Wallis went to St. Joseph yesterday and will return this evening.

Leave For Colorado.

Misses Clara Hurd and Verna Kennedy will leave tomorrow for a camping trip through Colorado. On their return Miss Hurd will spend a couple of weeks in St. Joseph.

TO TEACH THRIFT

AMERICA WILL REVISE TEXT BOOKS FOR THIS PURPOSE.

GREAT AMERICANS USED

Will Be Held Up to Children as Examples of Successful Accomplishment—Other Changes Planned.

New York, July 24.—America will be the first nation in the world to rewrite her text books so that the children of this country will be taught thrift in the school room. According to an announcement made this week by the Thrift Education committee of the National Education association, radical innovations in the American school curricula are about to take place.

The lives of James J. Hill, Marshall Field, John Wanamaker and other great American business men will be studied in the schools, and text books on arithmetic, history, English composition, domestic science and household economics will be subjected to radical changes. For the first time in the history of the world, thrift, and personal efficiency will be given scientific consideration in the class room. Not the narrow thrift of mere money saving but the broader thrift of individual preparedness for practical life will be taught, declares the committee's statement.

This is the sweeping significance of the resolutions adopted by the National Council of Education at its meeting in Portland last week. The resolutions were written and presented by S. W. Straus of New York, president of the American Society for Thrift. They point out that on account of the war America must now on eliminate waste of every character; that President Wilson's first message to the public after the declaration of war was on thrift; that the only way to safeguard the economic future of the nation is through a better understanding of thrift which can be made possible only through the school room and that at the forthcoming meeting of the Council of Education in Atlanta, Ga., the school organization will be expected to have before it a comprehensive plan for the practical study of thrift in the schools of America.

HAS AMERICAN ADVISER.

Maharaja Gaekwar of India Names Ralph Whitenack Secretary.

Wilmington, Del. — Ralph Cahoon Whitenack of this city has been appointed secretary and economic adviser to the maharaja gaekwar of Baroda, India. Mr. Whitenack is professor of political economy and sociology in Keio university, Tokyo, Japan. Mr. Whitenack is a resident of this city and a graduate of the Wilmington high school and of Gokley college.

After working as a stenographer at the offices of the Edge Moore Bridge company he attended Brown university and graduated with honors. He went to Baroda in 1906, where his work attracted the gaekwar, who appointed him his economic and financial adviser. Mr. Whitenack built tramways, cotton mills and established a national banking system. He spent three years in India and returned to take a post-graduate course at Harvard. When he had finished his course there he went to Japan.

Indians Buy Liberty Bonds.

Ashland, Wis.—Three hundred and forty Bad river Chippewa Indians, after holding a council, subscribed $162,250 for liberty bonds. A full blooded orphan Chippewa, Frank Antonie, seventeen years old, went to the bank where he had $18,000 to his credit, drew $7,500 and bought bonds. He then applied at the army recruiting station and enlisted.

WHEN THE SOLDIERS DIE

U. S. War Office Gives Course to Be Followed When Sammies Are Killed in France.

In event of death among officers or enlisted men of the army, the Adjutant General's office will continue the present practice of sending individual notices to the next of kin immediately upon receipt of such notice.

This notice will generally consist of a brief notice giving the date, place, and cause of death.

The details attending the death will be given by the deceased's late organization commander

All deaths occurring among the troops of the expeditionary forces in France will be published in the Official Bulletin as soon as notice thereof has been received.

Under the law a deceased soldier's commanding officer has full jurisdiction in the matter of disposing of any personal effects that may have been in the possession of the soldier at the time of his death; and when the effects are not claimed by the legal representatives within a reasonable period the proceeds of the sale are deposited in the United States Treasury subject to the claim of the legal representative, and all such claims are settled by the Auditor for the War Department.

If it is desired to make claim for the personal effects an application for the same should be at once addressed to the commanding officer of the late soldier's company. This application should be accompanied with affidavits of the fact that the claimant is the legal representative entitled to receive the effects of the deceased soldier.

The accounts of deceased soldiers are settled by the Auditor for the War Department, Washington, D. C., who is the official of the Treasury Department, charged by law with the settlement of claims of this character and to whom application should be made by the legal representative of the late soldier for settlement of his accounts. Any correspondence relative to the removal of the remains of the deceased soldier, for the place of burial, should be addressed to the Quartermaster General of the Army, Washington, D. C.

In cases of death among the troops in the United States the commanding officer at the place of death communicates with the relatives of the deceased as to the disposal of the remains. In event, however, that burial has already taken place all correspondence relative to the removal of the remains of the deceased should be addressed to the Quartermaster General, United States Army, Washington, D. C.

; FLAW IN ALIEN DRAFT PLAN.

Conscription of Foreigners Would Necessitate Reciprocal Agreement.

Washington, July 27.—Agreements with allied governments for drafting their subjects in this country were discussed by Senators Stone and McCumber with Acting Secretary Polk of the state department.

It was pointed out that such conscription might necessitate reciprocal conscription amongst Americans living in allied countries and would establish a precedent which might be dangerous. Italy, Serbia and Japan have special treaties on the subject which would have to be amended.

Will Donahue of Des Moines, Ia., is visiting at the home of Mr. and Mrs. Tom Parle.
